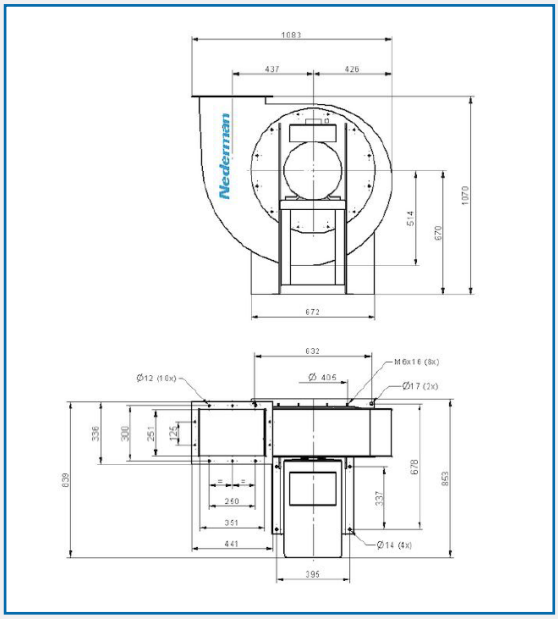
NEDERMAN NCF FAN 120/25

TECHNICAL SPECIFICATION

Protection class	IP 55
Installation	(Outdoor), (Indoor)
Material	Sheet metal, painted grey, RAL 7045
Ambient temperature range	-30 to +40°C
Operating temperature	Max. 60°C
Frequency	50 Hz
No. of phases	3

DIMENSIONS DRAWING



Fan NCF 120/25
Duct inlet diameter 400 mm
Duct outlet diameter 400 mm

DESCRIPTION

The Nederman NCF Fans have direct drive motors which means a safe and cost effective operation. Installing an energy efficient NCF fan with other Nederman products saves time and reduces energy costs.

It is a centrifugal fan designed for use in all types of industrial process and ventilation systems, mounted indoor as well as outdoor. The fan is equipped with vibration absorbers as standard.
