

## NEDERMAN WELDING AND GRINDING TABLE

### FEATURES

- Easy to install
- Sturdy industrial design
- Flexible in terms of installation possibilities
- Flexible extraction capacity
- Maintenance friendly

### PRESSURE DROP GRAPH

### DESCRIPTION

Industrial welding and grinding table for extraction of fumes, dust and particles at welding and grinding operations. It can also be used in explosive environments, if grounded accordingly. The table is not suitable for cutting. The table facilitates suspension of the welding torch when not in use. Underneath the working area a dust drawer takes care of the heavy dust. The drawer can easily be emptied from the front of the table.

The duct connection for the external fan is located on top of the table and it is recommendable to use a filter device between the table and the fan. Suitable filters can be FilterBox, FilterMax C25 or the modular FilterMax models.
