DESCRIPTION

The Ductaire 700 is the newest and also smallest cabinet in the Ductaire range. It is designed where space is an absolute premium as the system takes up only 700mm of bench space. The unit provides full compliance with COSHH regulations and with BS7258:Part 4. The Ductaire 700 offers excellent value for money and a variety of features to provide a fully functional ducted fume cabinet. The fume cabinet has a high chemical resistance and a fully welded polypropylene construction, offering an integral spillage containment area.

CONSTRUCTION

- Fully welded highly chemically resistant industrial quality white Polypropylene with clear acrylic front folding sash
- Integral chemically resistant fully welded polypropylene work surface with deep side lip for spillage retention

FEATURES

- Compact Design - Fits Through Standard Doors
- Integral low airflow alarm with audible and visual alarm
- Fully isolated lighting
- Side mounted cable entry port
- Fully chemical resistant

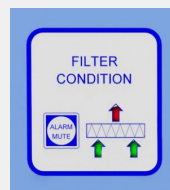

OPTIONS

- Deep Lipped Spillage Tray
- Integral Remote Fan Switching
