DESCRIPTION

The Monmouth Scientific Circulaire 650 FDS Formalin Dispensing Station provides a compact and safe solution to the dispensing of Formalin and chemicals in Operating Theatres, Pathology Laboratories & Mortuaries.

Free standing, simply place a container of formalin into the base section, connect up and dispense the formalin through the tap. The large capacity carbon filter ensures that no fumes are returned into the working area.

Where additional safety is required an outlet carbon filter can be fitted along with a filter saturation alarm.
