

PUREX SOLDER FLEXIBLE ARM KIT 100295

TECHNICAL SPECIFICATION

Dimensions (Stainless Steel Arm)	Ø38mm. 1m Length
Dimensions (Flexible Black Hose)	Ø51mm. 2m Length
Nib Diameter	Ø38mm

DESCRIPTION

The Purex Stainless Steel Fume Extraction Arm is a 38mm pen nib nozzle suitable for accurate extraction of soldering fumes.

The heavy duty stainless arm is posable and can withstand daily use in the production of electronics.

The Kit Contains :

- 1 x Ø38mm/1m Arm
- 1 x Pen Nib Nozzle
- 1 x Conical Cowl Nozzle
- 1 x Clamped Bench Bracket
- 1 x Ø51mm/2m Flexible Black Hose
- 2 x Connecting Cuffs
- 1 x Support Collar and Valve

The nozzle is interchangeable between the Pen Nib and Conical Cowl - the user can choose which nozzle is appropriate for the work they are conducting.

FEATURES

- Hard wearing stainless steel construction
- Choice of two nozzles
- Clamped bench bracket for easy installation
- Flexible posing nozzle ensures correct positioning for optimal fume extraction
- Long 2m Connection hose allows unit to be located away from user
- Compact design for portable use
