

NEDERMAN 426A

DESCRIPTION

Industrial dry vacuum cleaner 426A is designed for removal and collection of industrial waste and spillage. This powerful dry vacuum suction unit comes equipped with a silo and cyclonic pre-separator before the filter, ensuring efficient collection of large quantities of material. The 426A Industrial vacuum can also be equipped with a HEPA filter for finer particles.

The industrial vacuum cleaner includes slots for handling by forklift. Special swiveling, locking wheels are sized to increase mobility, and make the handling of heavy loads especially easy. The dry vacuum's cyclonic silo is equipped with a manual valve.

ACCESSORIES

Control Spneum for NE	43212001
Control S for NE 22-76	43220001
Control S for NE 22-76	43220026
Control S for NE 86-96	43222008

TECHNICAL SPECIFICATION

Application	Dust, Granulate, Grit, Swarf
Certifications	CE
Dustbin Volume (l)	58 l Cyclonic Silo + 47 l Dustbin
Filter Area (m ²)	1,56
Filter Cleaning Method	Reverse Air Pulse
Installation	Outdoor, Indoor
Filter Material	Microfibre
Filter Type	Cartridge
Hose Diameter (mm)	51
Hose Length (m)	7,5
No. of Filter Elements	1
Weight (kg)	119

SUPPLIED WITH

- Manual discharge valve
- 426A - NE42, Extended height:**
 - Floor cleaning equipment
 - Scraping tool
 - Conical nozzle
- 426A - NE52 (42142600):**
 - Floor cleaning equipment
 - Scraping tool
 - Conical nozzle
- 426A - NE52 (42142606):**
 - Floor cleaning equipment
- 426A - NE74:**
 - Floor cleaning equipment
 - Scraping tool
 - Conical nozzle

PART CODE/ORDERING TABLE

426A - NE42, Extended height	42142602
426A - NE52	42142600
426A - NE52	42142606
