

## NEDERMAN 306E

### TECHNICAL SPECIFICATION

|                                 |                          |
|---------------------------------|--------------------------|
| Application                     | Liquid, Granulate, Swarf |
| Certifications                  | CE                       |
| Dustbin Volume (l)              | 40+47 l                  |
| Filter Area (m <sup>2</sup> )   | 0,35                     |
| Installation                    | Outdoor, Indoor          |
| Protection Class                | IP44                     |
| Filter Material                 | Polyester-Teflon         |
| Filter Type                     | Bag                      |
| Frequency (Hz)                  | 50/60                    |
| Hose Diameter (mm)              | 51                       |
| Hose Length (m)                 | 7,5                      |
| Max Airflow (m <sup>3</sup> /h) | 460                      |
| Max Vacuum (kPa)                | -21,5                    |
| No. of Filter Elements          | 1                        |
| Noise Level (dB(A))             | 75                       |
| Power (kW)                      | 2,4                      |
| Power Voltage (V)               | 230                      |
| Type of Hose                    | PE/C                     |

### DESCRIPTION

With a pre-separator container this wet/dry vacuum extractor is designed for extraction, collection and separation of liquids, sand, and other granules. The industrial vacuum cleaner 306E is electric powered and is suitable for wet and dry extraction. This dry/wet vacuum contains two filtration stages that ensure optimum cleaning efficiency.

Suction equipment is strong and durable, suitable for building and construction industry and turning and general industries. The wet/dry vacuum containers can be easily tilted to empty their materials. The float ball prevent the first container from overflowing. The trolley is equipped with large wheels for ease of mobility.

### FEATURES

- Easy to empty with tippable container.
- High mobility and great for handling industrial spillage.
- Liquid recovery – wet and dry extraction.

### SUPPLIED WITH

- Radio interference suppression
- Cleaning set
