

DUSTCONTROL DC STORM 500 L

TECHNICAL SPECIFICATION

Dimensions	1790 x 780 x 1160 mm
Power Consumption	4 W
Max. Negative Pressure	25 kPa
Max. Airflow	500 m ³ /h
Collection Bag	Longopac
Weight	178 kg
Inlet	Ø76 mm
Hose Length	5 - 30 m
Fine Filter Area	5 m ²
Fine Filter Efficiency	99.9 %
HEPA Filter Area	2.7 m ²
HEPA Filter Efficiency	99.995 %
Sound Level	75 dB(A)

FEATURES

- New efficient semi-automatic filter cleaning system
- For easier transportation it has handles both front and rear and the cyclone can be tilted
- For better ergonomic the handles are adjustable and the cyclone can be tilted for easy filter change
- Equipped with Longopac bags
- New more efficient HEPA filter with a larger filter area

DESCRIPTION

The Dustcontrol DC Storm 500 L is an electrically driven suction machine for use in point extraction, cleaning and material transport in most types of industries.

The dust extractor uses negative pressure (suction) to force the air through a suction cover/nozzle, hose system, pre-separator and dust separator. Coarse separation is carried out in the machine's cyclone, providing very effective separation of any coarse dust.

Fine dust is separated in the units filter. Reverse-pulse filter cleaning ensures extended filter life. The machine is fitted with a HEPA filter.

The separated material is collected in a plastic bag under the cyclone. Reverse-pulse filter cleaning gives extra long filter life and ensures maintained suction.

DELIVERED WITH

- 7.5 m suction hose Ø50 (Part No. 2401 + 2008 + 2107)
- Aluminium floor tool B500 Ø2"/50 mm (7238)
- Chrome steel suction pipe Ø2"/50 mm (7265)
- (L) Longopac flexible length
- HEPA filter (42869)
- Fine filter polyester (44212) or PTFE filter (44081)

AES OFFER INSTALLATION AND SERVICE SUPPORT FOR ALL EQUIPMENT
