

DUSTCONTROL DC TROMB 400 L TWIN c/L

TECHNICAL SPECIFICATION

| | |
|-----------------------------|-------------------------------|
| Dimensions (L x W x H) | 1280 x 600 x 1360 mm |
| Power Consumption | 3000 W |
| Max. Negative Pressure | 20 kPa |
| Max. Airflow | 365 m ³ /h |
| Collection Bin | c - 20 litres L - Longopac |
| Weight | c - 76 kg L - 80 kg |
| Inlet | Ø76 mm |
| Hose Length | 5 m |
| Polyester Filter Area | 2.5 m ² |
| Polyester Filter Efficiency | 99.99 % |
| HEPA Filter Area | 2.2 m ² |
| HEPA Filter Efficiency | 99.995 % |
| Sound Level | 70 dB(A) |

DESCRIPTION

The DC Tromb 400 L Twin c/L is a portable but very powerful dust extractor suitable for large quantities of dust due to its integrated pre-separator.

It is particularly suitable for concrete grinding since 80-90% of the coarse materials are separated in the pre-separator.

The remaining dust goes into the filter cyclone. The DC Tromb Twin is a flexible machine since it is powerful enough for most applications yet it can be easily moved and transported.

The air flow capacity is suitable for concrete floor grinding machines with diamond discs of up to 500 mm/20" diameter.

The following has the following discharge options:

- c: Plastic bag - The extracted and separated material is collected in a plastic bag that can be detached in one simple operation.
- L: Longopac - The machine is equipped with a flexible bag system, in which the dust is collected in a closed system.

ACCESSORIES

| Item | Part Code |
|-------------------------------------|-----------|
| Rubber part, floor tool Ø2"/50 mm | 7013 |
| Suction nozzle with brush (7147) | 7016 |
| Suction nozzle Ø2"/50 mm | 7030 |
| Chrome steel hand pipe Ø2"/50 mm | 7033 |
| Cast Alu Floor Tool B20"/500 mm | 7238* |
| Chrome steel suction pipe Ø2"/50 mm | 7265 |
| Tapered nozzle Ø2"/50 mm | 7272 |
| Bulk nozzle Ø2"/50 mm | 7295 |

*Antistatic

SUPPLIED WITH:

- Antistatic hose set Ø 2" /50 mm x 25'/7,5m (Part No 2013+2129+2008)
- Aluminium floor tool B500 (Part No 7238)
- Chrome steel suction pipe Ø 2" /50 mm (Part No 7265)
- c-model (CC) with 10 plastic sacks intelli bag® (Art nr 43619)
- L-model (CL) with Longopac 25 m (432177) + 10 plastic sacks intelli bag® (43619)
- Fine filter, polyester (Part No 44017)
- HEPA filter (Part No 44016)
