

## PO - OVAL SHAPED RUBBER NOZZLE WITH 60° BEND

### DESCRIPTION

The PO Nozzle is suited towards exhausts of many different shapes and sizes. Made from rubber and with a 60° bend to allow ease of connection to the exhaust pipe.

Available in Ø80 & Ø100 mm hose connection.

Suitable for single and dual exhausts up to 125/65 mm.

### OPERATION

The Nozzle is capable of fitting on to nozzles of many shaped both double and single exhaust types.

The flexible nature of the rubber minimises the risk of scratching the vehicle whilst still maintaining a secure connection.

The nozzle can be attached onto the exhaust directly and connected to a hose reel or channel duct system to achieve efficient and safe extraction.

**AES can supply hose reels, channel ducting and other extraction options to suit the SA nozzle.**

### TECHNICAL SPECIFICATION/AES ORDERING TABLE

Part No.	Description	Exhaust	Hose Connection	Weight	AES Part Code
06-193	PO-80/130	125/65 mm	Ø80 mm	0.85 kg	EA-NZ06-001
06-194	PO-80/130, w. tight damper	125/65 mm	Ø80 mm	1.55 kg	EA-NZ06-002
06-195	PO-100/130	125/65 mm	Ø100 mm	0.65 kg	EA-NZ06-003
06-196	PO-100/130 w. tight damper	125/65 mm	Ø100 mm	1.20 kg	EA-NZ06-004
