

## NORTEK - VERTICAL STORAGE RACK

### FEATURES

- 5 Leaning Arms
- Wall fixing system
- Multi-bay racking
- Material Retaining rails

### TECHNICAL SPECIFICATION

Number of Bays	4
Construction	Welded Steel Racks
Unit Dimensions	2000(L) x 500(D) x 2000(H) mm
Bay Dimensions	500(L) x 500(D) x 2000(H) mm

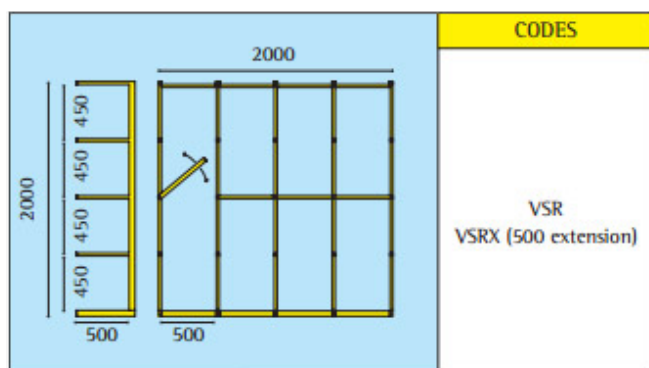

### DESCRIPTION

This vertical storage rack is made up of four 500mm wide bays. Each bay has a sheet steel base tray and a welded tubular steel upright frame.

The center arms are provided with material retaining rails that pivot out of the way to enable loading and unloading.

The rack is supplied as a flat pack and requires assembly.

**This unit is not designed to be free standing and should be firmly fixed back to the wall. Please ask for advice if you are unsure about the fixing method for your location.**
