PERFORMANCE GRAPH

DESCRIPTION

Single container system for fixed installation. Equipped with NCF filter which is automatically cleaned at each system stop. Cyclonic discharge of the material into a container of 47 liters (12 gal). Powerful vacuum unit suitable for recovery of dust, grit and granulated material.

The unit is efficient for collecting greasy chips from lathes and drilling machines in a central suction system.

FEATURES

- Efficient vacuum unit requiring minimal floor space
- Efficient self-cleaning NCF filter
- High suction capacity
