DESCRIPTION

The Mardon CSX Extractor has been designed specifically for use with circular saws. It is compact and comes complete with a wooden run off table allowing the extractor to replace the traditional free-standing run off table.

It has been well tried and tested over many years, during which time it has been constantly refined and improved.

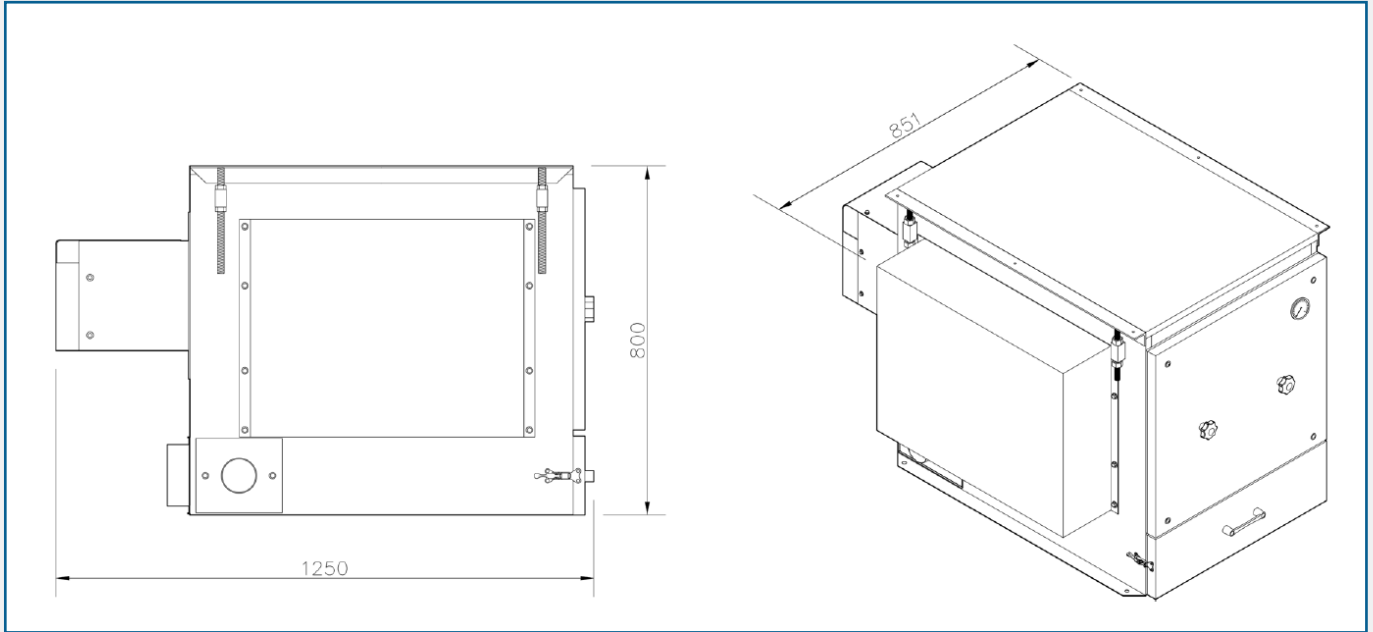

FEATURES

- Compact.
- Comes with a wooden top which is height adjustable.
- Low cost filter replacements.
- Designed specifically for circular saw applications.
- Can be used in conjunction with the Mardon crown guard kit.
- Also available as an ATEX compliant version for use with hazardous materials.
