

# NEDERMAN SINGLE EXHAUST EXTRACTOR

## TECHNICAL SPECIFICATION

Product Type	Single Exhaust Etractor
Installation	Indoor Only
Delivered with Hose	Yes
Hose Diameter(s)	Ø75, Ø100, Ø150 mm
Hose Length(s)	5, 6 & 7.5
Hose Colour	Blue
Hose Support Type	Manual Cord or Automatic balancer System
Supplied with Bracket	Yes, as standard

## DESCRIPTION

The single exhaust extractor is a reliable and efficient solution for any type of stationary vehicle in a repair or maintenance workshop.

The single exhaust extractor is available with a balancer mechanism or a cord for manual hose suspension. The balancer automatically raises the hose and nozzle after disconnection, and keeps them lifted at all times.

Models for high temperature application are available when MOT testing or for larger engine sizes.

The unit is very easy to install, using the included bracket. Prepared for fan mounting on bracket.

## FEATURES

- Easy handling of exhaust hose
- Takes up very little space
- Low cost solution
- Easy to install
- Prepared for fan mounting on bracket

## PRESSURE - SINGLE EXHAUST

## REFERENCE TABLE

1	Ø75 mm, 5 m
2	Ø100 mm, 7.5 m
4	Ø100 mm, 5 m
5	Ø150 mm, 7.5 m
7	Ø150 mm, 6 m
8	Ø150 mm, 5 m
