

## NEDERMAN ROUND RUBBER NOZZLE WITH WIRE GUARD

### DESCRIPTION

The Nederman Round Rubber Nozzle is a heavy duty rubber nozzle with a strong clamp system.

This nozzle is best suited for large vehicles such as HGVs.

The large Ø150mm hose connection ensures that the majority of large exhaust tips are accepted by the nozzle.

Available in Ø125 & Ø150 mm hose connection.

### OPERATION

The Nederman Round Rubber Nozzle can be connected to an exhaust tip using the clamp system on the front opening.

Simply attach the brass coloured clamp to the edge of the exhaust and pull the red lever backwards until secure.

To release the nozzle, simply push the red lever forward to open the clamp.

The nozzle can be attached onto the exhaust directly and connected to a hose reel or channel duct system to achieve efficient and safe extraction.

**AES can supply hose reels, channel ducting and other extraction options to suit the nozzle.**

### TECHNICAL SPECIFICATION

Part No.	Description	Exhaust	Hose Connection
20805961	Nederman Round Rubber Nozzle with Wire Guard - 150 mm	Ø150 mm	Ø150 mm
20805861	Nederman Round Rubber Nozzle with Wire Guard. Hose Connection 60 degree angled - 125 mm	Ø150 mm	Ø125 mm

#### Other Round Rubber Nozzle

20807861	Rubber nozzle, with safety disconnection, automatic release
