

Reduce Energy and Save Money

F Save ensures that your Filtermist oil mist collector only runs precisely when it is needed - saving energy and money

✔ Rapid return on investment

Energy savings of up to 80% with an average payback from 2 to 12 months

✔ Safe, simple setup

Standalone setup ensures seamless integration without interfering with the machine electronics

✔ Total compatibility

Retrofit to any Filtermist unit

Energy efficient air filtration when you need it

Using our innovative sensor technology the F Save connects directly to your machine tool coolant pumps to automatically switch your Filtermist unit on and off based on your production activity. Your Filtermist unit is always on when you need it and off when you don't.

The only energy saving solution approved by Filtermist

- ✔ **Protect your people**
Removes the operator's ability to override extraction, ensuring people are always protected from airborne oil mist particles
- ✔ **Support your sustainability goals**
By reducing your environmental impact, lowering your carbon footprint, and supporting workforce health and wellbeing

Reduce energy consumption and save money
