

## S2M H CLASS ICLEAN

### DESCRIPTION

The S2M is a two-motor direct derivation cleaner, strengthened with a new trolley and designed to be versatile and easy to use. Among the two-motor vacuum cleaners, it is the most effective for vacuuming fine dust, where it stands out for its reliability.

### FEATURES

- Comes complete with patented filter cleaning technology for automatic filter cleaning - helping to minimise downtime and maintenance. This also significantly prolongs the filter life - reducing the need for replacement filters and spares.
- Extremely compact design for easy transportation and excellent manoeuvrability, ideal for confined spaces.
- Specifically designed for hazardous dust environments and very fine dust` sizes.
- Single-phase vacuum cleaner with two bypass motors for efficient suction power.

### TECHNICAL SPECIFICATION

Type	Iclean
Vacuumed material	Very fine dust
Motorization	Nr 2 by-pass
Power	2200 W
Voltage	230 V
Frequency	50 / 60 Hz
Amps	9.6 A
Air flow	340 M3/h
Depression	230 Mbar
Valve depression	-
Suction inlet	Type b tangential - 60 mm
Dimensions	480x910 h1380 mm
Weight	62 Kg
Filter chamber diameter	D. 370 Mm
Tank and longopack interchangeability	Yes
Filter type	2x cartridge ulpa+ptfe
Electric floater	-
Discharge system	-
Filtering surface	22.000 Cm2
Filter cleaning	Completely automatic no stop suction
Hepa absolute filter	-
Hepa filtering surface	-
Slurry filtration grade	-
